

**REMARKS**

This is in response to the final Office Action mailed November 29, 2006.

This response is accompanied by a Request For Continued Examination, a Petition for Extension of Time, and authorization to pay the fees associated therewith.

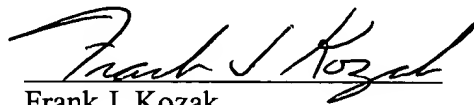

This response is also accompanied by a new power of attorney.

In the Office Action, mailed November 29, 2006, Applicant's Claims 1-20 were rejected as anticipated by U.S. Pat. No. 6,161,071 and Applicant's Claim 14 was rejected under 35 U.S.C. § 112, second paragraph.

With this response, Claims 1-20 have been cancelled and new Claims 21-40 have been added. New Claims 21-40 distinguish U.S. Pat. No. 6,161,071 because this patent neither discloses nor suggests the inventions recited in Claims 21-40.<sup>1</sup> For example, U.S. Pat. No. 6,161,071 does not disclose or suggest a method of providing information about points of interest using a location code comprised *inter alia* of four sub-strings of numbers that represent specific attributes of a represented point of interest, as recited in Claim 21.

Applicant has addressed the issues raised by the Examiner. Applicant submits that the present application is in condition for allowance. The Examiner is invited to call the undersigned if any matter remains to be resolved.

Respectfully submitted,

Frank J. Kozak
